The main fields of work of non governmental organization International economic research institute (IERI) are: • the popularization of international experience and principles of forming the civil society in post socialistic countries and adaptation of Central and Eastern European countries' experience of market transformations to social and economic conditions of Ukraine; • analytical accompaniment and civil control of an Ukraine's European integration process on the regional level by holding the researches concerning the problems of development of Ukraine's trans border relationships with countries-members of EU and spreading the positive experience of development and functioning of euro areas; • propaganda of the policy of European integration and main principles of its implementation in the surrounding of the local and regional authorities, especially in central and eastern regions of Ukraine.

Our projects:

1. Research concerning the question of how to form the institutional society on the basis of administrative and regulative reforms, reorganization of the principles of social area functioning in Central and Eastern European countries (experience of Poland). The results of the research were published in the analytical brochure "Institutional basis of social, economic and market transformations in Poland. – Lviv. Lviv Academy of Commerce, International economic research institute, 2003.
2. Research concerning the problem of economic development of Ukraine in terms of finding the ways of possible increase in effectiveness of foreign investments. As the outcome of this research such analytical brochures were published: "Role of regional and local authority in process of engagement of foreign investments". – Kyiv 2003; "Plan of local economic development: opportunities and risks". – Kyiv 2005; "Foreign investments as the resource for local development". – Kyiv 2005
2. Development and implementation of the project program "Strategy of development of Ukraine". During this project the number of seminars "Local and regional development of Ukraine" were held in different regions of Ukraine.
